

EMWK 1050.0 PW

Features:

Microwave output 1,000 watts

5 microwave output levels

Grill 1,500 watts

Baking and roasting programmes, 6 oven functions

Precise cooking temperatures and times are specified by the programmes for perfect baking and roasting results. Additional functions for individual oven settings are also available.

Sensor touch controls and direct programme selection

Sensor touch controls facilitates the direct, easy selection of the desired oven functions at the touch of a finger.

Hot air convection (with ring heating element)

A fan evenly distributes the heat generated from the ring-element around the oven cavity and ensures even results.

Automatic defrost and weight function

In order to gently defrost a variety of foods, simply enter the type of food and the weight.

Quick-start function

Pressing the quick-start button automatically starts the microwave oven without the need to select any additional programme buttons.

Fully electronic system including programmable timer functions (duration, start or end time, minute minder)

The user-friendly electronic oven controls with symbol display provide user guidance for fully automatic baking and cooking.

Childproof lock

Stainless steel oven cavity with 2 rack levels

With 38 litres volume, the stainless steel oven cavity offers plenty of room with 2 rack levels for maximum flexibility.

Turntable, with switch-off function

Childproof lock

Oven lighting
